

Setup for MP2 Mini Counter

- The final total visible area (represented by the grey shaded area) is 1248mm wide x 1005mm deep.
- The front flat section is approx 500mm (represented by the magenta shaded area).
Keep logos/graphics within this area to prevent them wrapping around the sides of the unit.
- When placing images please ensure they are CMYK and at least 120dpi when placed at 100%.
- Please make sure all text is set as outline and placed as an eps file.
- Please supply final artwork as a high resolution PDF. No bleed or crop marks are required.
- If you require any assistance please contact Nouveau Productions on +61 2 9281 2077 or info@nvp.com.au
